Date: 2/5/13

Chain Sling Registration No.: 1548-5

MULTI LEG CHAIN SLING TEST CERTIFICATE

This is to certify that Susquehanna Wire Rope & Rigging has subjected the alloy chain and sling components used in this assembly to the appropriate quality tests in accordance with ASTM Designation A391 and the pertinent OSHA requirements for alloy steel chain slings.

CERTIFIED BY:

SUSQUEHANNA WIRE ROPE & RIGGING
1565 Frederick Avenue
Williamsport, PA 17701 **(877) 304-4707**

SAMPLE

The working load limit of the chain and components shown hereon is established as pounds applied tensile load to the indicated degrees from horizontal. PROPER MODIFICATIONS OF THIS WORKING LOAD LIMIT SHOULD BE CALCULATED OR OBTAINED FROM SUSQUEHANNA WIRE ROPE & RIGGING CHARTS TO COMPENSATE FOR ADDED STRESS WHEN USED AT OTHER ANGLES. (See chart reverse side). Serious injury can result from exceeding the Working Load Limit of this chain sling.

Customer's Name: ABC Company

Customer's Order No.: 654321

No. of Slings: 1 Size & Material: 3/8" x 8' - Grade 100

Type and Reach: Type DOSA x 8'

Working Load Limit:
at 60 Degrees 15,200 pounds
at 45 Degress 12,400 pounds
at 30 Degrees 8,800 pounds

This is to certify that this certificate, identified by the customer's order number and date, is composed of the chain and components set forth herein.

Signature:

This sling is subject to the warranty terms on the back of this certificate.

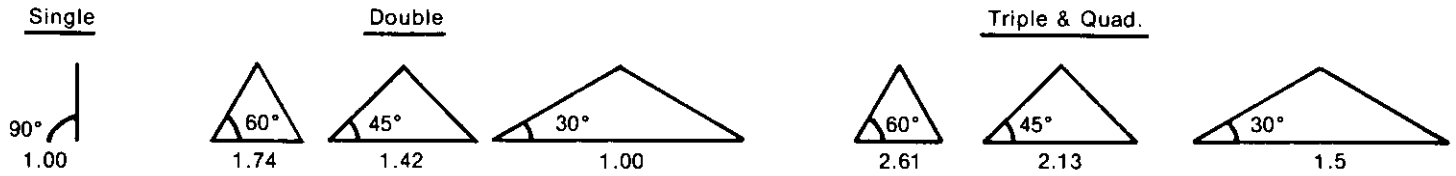
WARRANTY

Susquehanna Wire Rope & Rigging Inc. warrants this chain and components to be free from defects in workmanship and materials for 90 days from date of purchase. NO OTHER WARRANTY EXPRESS OR IMPLIED, INCLUDING THE IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE, IS GIVEN AND NO AFFIRMATION OF SUSQUEHANNA WIRE ROPE & RIGGING, BY WORDS OR ACTION, SHALL CONSTITUTE A WARRANTY.

REMEDIES

The Buyer's sole remedy for breach of any warranty is limited exclusively to obtaining, at the discretion of Susquehanna Wire Rope & Rigging Inc., either repair or replacement of this chain and/or components. Susquehanna Wire Rope & Rigging Inc. will not pay any claim or labor on any products or for delays or damages by reason of their use. In no event shall Susquehanna Wire Rope & Rigging Inc. be liable for any incidental or consequential damages resulting from Buyer's failure to use the chain or components within the working load limit. The Buyer must notify Susquehanna Wire Rope & Rigging Inc., in writing, within 10 days of discovery of the alleged defect and within the warranty period stated above.

WORKING LOAD LIMIT



To determine the rated working load of a particular chain sling, multiply the recommended **working load limit** for the size of chain to be used by the factor shown under the type of sling at the angle of lift of the load.

Ex. – W.L.L. of Double sling at 45˚ - W.L.L. x 1.42 = Recommended working load limit for sling.
